ABOUT

- I am a self-taught Experienced **Frontend Developer** with a strong command of frontend technologies and frameworks, specializing in **Typescript, React, Next.js, TailwindCss**.
- Skilled in creating responsive and interactive web applications, ensuring eye pleasing and a seamless user experience.

EXPERIENCE

Junior-prep.com - Open Source   December 2023 - Present

- Initiated and led the development of a robust web application using **Next.js** called junior-prep.com an open-source platform supporting junior web developers in preparing for technical interviews.
- Implemented and managed the database layer with **Prisma**, ensuring efficient data modeling and interactions.
- Employed **React Query** for data fetching and state management, optimizing client-server communication and improving application performance.
- Used **Zod** for schema validation, ensuring data integrity and improving user input handling.
- Integrated **NextAuth** for secure and scalable user authentication, enhancing the security and user management.

IDURAR - Intern   July 2023 - September 2023

- I spearheaded the creation of a table component with a hook that improved user experience on various screen sizes and gave a decently accessible table for mobile.
- I actively participated in the code review process as a repository maintainer, thoroughly assessing and testing community pull requests sharpening my **Git** and version control skills.
- I gained a deeper understanding of **Redux** by leveraging it to effectively manage the complex application state.

3WM - *Freelance*   July 2023 - September 2023

- Spearheading the creation and integration of new pages, utilizing a wide range of technologies including **HTML**, **CSS**, **JavaScript** and **jQuery**.
- Demonstrated a rapid ability to adapt to the company's needs by quickly learning and implementing both new and legacy technologies such as jQuery, **Bootstrap**, and **Twig**.
- Collaborated effectively with cross-functional teams, ensuring smooth project execution and successful outcomes.

Prifina - Liberty. Equality. Data. - Intern   November 2022 - February 2023

- Constructed Data-Mine's website from scratch with **Next.js** and **Chakra UI** and seamlessly connecting it to the company's Notion workspace for efficient data retrieval and data management.
- Achieved significantly faster loading times and a reduction in unnecessary API calls and website rerenders, greatly enhancing the website's overall performance.

Seocomponent.com - *Freelance*   Septembre 2022 - November 2022

- Streamlined the codebase by developing reusable components, simplifying the process of generating new schemas.
- Implemented a new context mechanism, seamlessly sharing states between components optimizing the website speed and eliminating code duplication.
